DETAILED ACTION

1. The cancellation of claims 10-19 in Paper filed on 1/18/06 is acknowledged.

Claim Objections

2. Claim 2 is objected to because of the following informalities: in claim 2, line 4, a phrase "wherein the second field effect transistor further includes a source" should be deleted because this feature is already mentioned in the base claim 1 (see claim 1, lines 7-8). Appropriate correction is required.

Allowable Subject Matter

3. Claims 1-3, 5 and 8-9 are allowed.

The prior art of record fails to disclose all the limitations recited in the base claims. Specifically, the prior art of record fails to disclose the structures and the arrangements of a vertical junction field effect transistor and a lateral junction field effect transistor disposed in a silicon carbide substrate as claimed.

4. Applicant requesting of rejoinder of non-elected claims 4,6 and 7 is acknowledged. However, the non-elected claims 4, 6 and 7 have not been rejoined because they are not directed to the process of making or using the allowable product claims (see MPEP 821.04), and they are not include all the limitations of the allowable product claims.

Conclusion

5. This application is in condition for allowance except for the following formal matters:

This application contains non-elected claims 4, 6 and 7 drawn to an invention nonelected with traverse in Paper filed on 8/9/05.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
